

*Automotive Chemicals - Technical Sprays - Car Care*

Version: **TS/028**

## **Valvoline™ Airco Refresher**

High quality spray to refresh the air conditioning and air circulation system in vehicles.

---

### **Applications**

Air-conditioning

### **Product characteristics**

Very easy to apply  
Very effective  
Subtle scent

### Directions for use:

Before use, carefully read the directions on the packaging.

Valvoline™ Airco Refresher should be at room temperature before use. The processing temperature should be between 5 to 30°C. Shake before use.

Start the engine and let the engine idle. Put both chairs and the back of the chairs in front position. Put the air circulation system on full power in the recirculation position.

Place Valvoline™ Airco Refresher behind the chairs, activate the aerosol by pressing the nozzle just once and close the doors.

After full evaporation of Valvoline™ Airco Refresher, the engine should idle for some minutes.

Switch off the engine and ventilate for approximately 10 minutes.

# PRODUCT INFORMATION

## Keeping the world moving since 1866™

Serving more than 100 countries around the globe, Valvoline is a leading marketer, distributor and producer of quality branded automotive and industrial products and services. ## Typical properties

Typical property characteristics are based on current production. Whilst future production will conform to Valvoline specifications, variations in these characteristics may occur.

Valvoline™ Airco Refresher	
Contents	150 ml
VOC-content	Approx. 99% w/w

**This information only applies to products manufactured in the following location(s): Europe**

## Health & Safety

This product is not likely to present any significant health or safety hazards when properly used in the recommended application and good standards of personal hygiene are maintained. Reference is made to the Safety Data Sheet (SDS) which is available on request via your local sales office or via the internet <http://sds.valvoline.com>

## Protect the environment

Take used chemicals to an authorized collection point. Comply with local regulations. Do not discharge into drains, soil or water.

## Storage

We recommend to store all packages under cover. In case outside storage is unavoidable, drums should be laid horizontally to avoid the possible ingress of water and damage to drum markings. Products should never be stored above 60°C, exposed to hot sun or freezing conditions.
