

Automotive Chemicals – Technical Sprays - Cleaning

Version: **TS/011**

Valvoline™ Brake Cleaner

High quality brake cleaner in aerosol and 5 & 25-liter cans to be processed with the special aluminum pressure can.

Applications

Drum Brakes
Disc Brakes
Brake Linings
Brake Calipers
Brake Shoes

Product characteristics

Strong jet spray (Aerosol only)
Excellent dissolving property
Leaves no residue
Non-conductive
Non-corrosive

Directions for use:

Before use, carefully read the directions on the packaging.

Valvoline™ Brake Cleaner should be at room temperature before use. The processing temperature should be between 5 to 30°C. Shake aerosol before use.

Cover lacquered and plastic parts.

Spray parts until the contamination has disappeared.

Contaminated brake cleaner should be regarded as chemical waste.

Health & Safety

This product is not likely to present any significant health or safety hazards when properly used in the recommended application and good standards of personal hygiene are maintained. Reference is made to the Safety Data Sheet (SDS) which is available on request via your local sales office or via the internet <http://sds.valvoline.com>

Protect the environment

Take used chemicals to an authorized collection point. Comply with local regulations. Do not discharge into drains, soil or water.

Storage

We recommend to store all packages under cover. In case outside storage is unavoidable, drums should be laid horizontally to avoid the possible ingress of water and damage to drum markings. Products should never be stored above 60°C, exposed to hot sun or freezing conditions.
