

Automotive Chemicals – Technical Sprays - Cleaning

Version: **TS/012**

Valvoline™ Power Brake Cleaner

High quality brake cleaner with high dissolving properties in an aerosol. Due to the higher amount of propellant compared to regular aerosols this product has a powerful jet spray.

Applications

Drum Brakes
Disc Brakes
Brake Linings
Brake Callipers
Brake Shoes

Product characteristics

Powerful jet spray
Excellent dissolving property
Leaves no residue
Non-conductive
Non-corrosive
360° valve

Directions for use:

Before use, carefully read the directions on the packaging.

Valvoline™ Power Brake Cleaner should be at room temperature before use. The processing temperature should be between 5 to 30°C. Shake before use.

Cover lacquered and plastic parts.

Spray parts until the contamination has disappeared.

Contaminated brake cleaner should be regarded as chemical waste.

Contents	500 ml
Basis	Aliphatic Hydrocarbons
Propellant	Carbondioxide
VOC-content	Approximately 97% w/w
Colour	Transparent
Scent	Characteristic
Yield	4 – 5 g/sec
Vapour pressure at 20°C	6,0 to 6,5 bar

This information only applies to products manufactured in the following location(s): Europe

Health & Safety

This product is not likely to present any significant health or safety hazards when properly used in the recommended application and good standards of personal hygiene are maintained. Reference is made to the Safety Data Sheet (SDS) which is available on request via your local sales office or via the internet <http://sds.valvoline.com>

Protect the environment

Take used chemicals to an authorized collection point. Comply with local regulations. Do not discharge into drains, soil or water.

Storage

We recommend to store all packages under cover. In case outside storage is unavoidable, drums should be laid horizontally to avoid the possible ingress of water and damage to drum markings. Products should never be stored above 60°C, exposed to hot sun or freezing conditions.
