

Automotive Chemicals – Technical Sprays - Tool

Version: **TS/010**

Valvoline™ Leak Detector Spray

High quality spray to trace leakages in gas pipes.

Applications

Compressors
Gas pipes
Air pipes
Tyres

Product characteristics

DVGW certified (no. NG/5170BR0105)
Non-flammable
Can be removed with water
Non-corrosive
Environment friendly
Slightly foaming
Slightly basic
High yield

Directions for use:

Before use, carefully read the directions on the packaging.

Valvoline™ Leak Detector Spray should be at room temperature before use. The processing temperature should be between 5 to 30°C. Shake before use.

Apply Valvoline™ Leak Detector Spray to the suspected zone to trace the leakage. Bubbles will appear at the place of leakage.

Superfluous spray can be removed with water.

Health & Safety

This product is not likely to present any significant health or safety hazards when properly used in the recommended application and good standards of personal hygiene are maintained. Reference is made to the Safety Data Sheet (SDS) which is available on request via your local sales office or via the internet <http://sds.valvoline.com>

Protect the environment

Take used chemicals to an authorized collection point. Comply with local regulations. Do not discharge into drains, soil or water.

Storage

We recommend to store all packages under cover. In case outside storage is unavoidable, drums should be laid horizontally to avoid the possible ingress of water and damage to drum markings. Products should never be stored above 60°C, exposed to hot sun or freezing conditions.
